

# **Water Sustainability Fund 2020 Annual Report for Application # 5196**

## **CPNRD Drought Management Plan and Local Drought Monitor**

**Contract Date: November 28, 2017**

**Amount Obligated: \$60,000**

### **Project Activities for the Past Year:**

Data has been collected to inform the drought risk and vulnerability assessment for the CPNRD. Local and regional planning efforts have been reviewed for their applicability to the drought plan. A drought workshop was held in July of 2019. The purpose of this drought workshop was to educate attendees on drought impacts in the district, engage stakeholders, and acquire information to incorporate into the drought plan. The drought monitoring methodology has been identified for the district.

### **2020 Anticipated Activities**

A draft plan document is anticipated by the end of 2020.

### **Projected Project Expenses for Remainder of Project**

Reimbursements were requested and awarded in the amount \$19,194.75. Of the requested amount (\$60,000), \$28,950.00 remains.

### **Reassessment of Project Benefits**

TBD
