

Water Sustainability Fund Annual Report for Application # 5214

CPNRD Conceptual Multi-use Dam Design

Contract Date: December 18, 2018

Amount Obligated: \$56,270

Current Project Activities:

Existing and potential dam sites and other structures have been classified, reviewed, and a product has been developed for the CPNRD.

2023 Anticipated Activities

We are anticipating the groundwater models to be finished this year and will look at incorporating those into our design and finalizing a design memo.

Projected Project Expenses for Remainder of Project

Reimbursements were requested and awarded in the amount \$1,175.60. Of the requested amount (\$56,270.00) \$0.00 remain.

Reassessment of Project Benefits
