

Water Sustainability Fund Final Report for Application # 5214

CPNRD Conceptual Multi-use Dam Design

Contract Date: December 18,
2018 Amount Obligated: \$56,272

Current Project Activities:

Existing and potential dam sites and other structures have been classified, reviewed, and a product has been developed for the CPNRD.

2024 Anticipated Activities

The groundwater models have been finished and we are looking at incorporating those into our design and finalizing a design memo.

Projected Project Expenses for Remainder of Project

There were no reimbursement request made for this reporting period. Of the requested amount (\$56,272.00) \$0.00 remain.

Reassessment of Project Benefits
