

West Knox Rural Water – Project# 10086
Water Sustainability Fund Grant Status Report

03/26/25

Remote Read Meters

Project activities through March 26, 2025 have included:

- Quotes for signage reviewed and ordered
- System master meters are measured – currently working on ordering to specs
- Currently working with Badger Meters for total system
- Working with software companies on interfacing and billing components
- Have been in contact w/contractor – he will be available when meters arrive
- Waiting to hear back on posts – will be ordering soon

Project activities for the upcoming year include preparation and installation of the new metering system. Following the installation of meters, the software will be installed and implemented. Anticipated completion of this project is in the Fall of 2025.
