

NEBRASKA NATURAL RESOURCES COMMISSION

MEETING MINUTES – July 23, 2025

CALL TO ORDER – PLEDGE OF ALLEGIANCE & ROLL CALL

Chairman Wilke called the meeting to order at 1:30 p.m. in the Holiday Inn Hotel & Conference Center, Kearney, Nebraska. The roll was called following the Pledge of Allegiance.

Roll Call:

Commissioners		Absent	Present	Commissioners		Absent	Present
Rollie	Amsberry		X	Tom	Mountford		X
Don	Batie		X	Doug	Reeves		X
Lawrence	Bradley		X	Keith	Rexroth		X
Devin	Brundage		X	Lyle	Schroer		X
Mark	Czaplewski	X		John	Shadle		X
Lane	Darnall		X	Matt	Smallcomb		X

Steve	Kelly		X	Greg	Wilke		X
Rick	Kubat		X	Vacant			
Kennon	Meyer		X	Vacant			
Larry	Mohrman		X				

DNR staff in attendance:

Kent Zimmerman

Others in attendance were:

Chris Miller, Miller & Associates; Kent Miller, TPNRD; Clint Verner, Legislative Fiscal Office; Katie Cameron, ENWRA; Jon Mohr, LRE Water.

ANNOUNCEMENTS

None were offered.

NOTICE OF THE MEETING AND PUBLIC MEETING LAWS

Notice of the meeting was published on the State Public Meetings Calendar and on the Natural Resources Commission (Commission) web site at <https://nrc.nebraska.gov>. A copy of Nebraska's open meeting statutes was available in the room.

MINUTES

Brundage moved and Rexroth seconded the motion to approve the minutes of the April 9th, 2025, Commission meeting.

Motion Passed.

DNR UPDATE & PUBLIC COMMENTS

No public comments were offered. Staff reported Director Bradley and Chief Water Officer Manning were unable to attend the Commission meeting today. The merger of DNR and DEE into DWEE has progressed smoothly, although three of the six Deputy Director positions have been eliminated. Director Bradley is in the process of aligning staff skills and abilities with workload needs to make the combined agency function efficiently. Commissioner Meyer,

mentioned the Perkins County Canal lawsuit has been filed with the Supreme Court and that she and her law firm will be involved in that litigation.

PROGRAM COMMITTEE

No updates were given. Chairman Wilke asked staff to lead discussion on agenda topics pertaining to program activities. No unusual activity was reported.

Resources Development Fund

The status report showed business as usual.

Small Watersheds Flood Control Fund

This is currently an unfunded program.

Soil & Water Conservation Program Fund

The status report showed business as usual.

Natural Resources Water Quality Fund

The status report showed business as usual.

Water Well Decommissioning Fund

The status report showed business as usual.

Water Sustainability Fund

The WSF status report showed business as usual. It was noted that WSF #5252 had received final reimbursement for the remainder of the grant, after the date this report was printed.

Individual Project Status and Close Out Reports are posted on the Commission's website (at: <https://nrc.nebraska.gov/water-sustainability-fund-reports>). Several projects were discussed.

Project Close Out & Grant Reduction

**WSF Project Proposed Close Outs & Grant Reductions,
2025**

EXECUTIVE COMMITTEE

Chairman Wilke called upon Batie to lead discussion on Committee items. Batie stated that Commissioner Steinkruger intends to eventually step down as Vice Chairman as he and his wife are planning to move out of state. Steinkruger was unable to attend this meeting but is planning

to attend the September meeting. Therefore, an election to fill the unexpired term of the NRC Vice Chairman will be on one of the next two meeting agendas.

Agenda items 6 (A) and 6 (B) were addressed later in the meeting.

Obligation #10093

Batie noted this project had been approved (Fully Allocated) last year but only partially funded (Obligated) due to funding limitations.

Batie moved and Dierks seconded the motion to obligate \$ 300,131.67 to WSF #10093 in accordance with Title 261 Chapter 3 Subsection 002.03 and Neb. Rev. Stat § 2-1507 (4).

Motion Passed.

APPLICATIONS REVIEW COMMITTEE

Committee Chairman Brundage noted the Department forwarded all 22 applications (except Omaha's CSO application) for review and scoring. The Committee met on July 8th and 9th to review each application and run through the scoring process. The Committee produced a recommendation for scores, funding conditions, ranking and funding. That recommendation was sent to Commissioners prior to this meeting.

Brundage called upon staff to describe the funding situation. Staff stated that there was no legislative appropriation to the WSF for FY 26; \$8 million was transferred from the Nebraska Environmental Trust subject to funding being expended for projects meeting the funding purposes of the NET. Because there was no legislative appropriation, there was no additional funding authority. There exists within the WSF, \$1,821,920.32 of previously unused spending authority. Therefore, the Commission is limited to awarding no more than \$1,821,920.32 this year. The Department intends to pursue acquiring additional funding authority during the next legislative session to allow the Commission to use the remaining funding for the 2026 WSF application cycle. Batie noted the Omaha CSO project receives 10% of the WSF appropriation each year and therefore it will not receive funding this year as 10% of zero is zero.

Brundage reviewed the process the committee went through during the Committee meeting to reach a final recommendation for scores, conditions, ranking and a funding decision for each application. Brundage stated the combined total funding requested by the 22 applications exceeded \$24 million.

Brundage reviewed the scoring range for both large and small funding categories and stated the Committee spent a lot of time looking at available funding and scores. The Committee concluded there is a break between scores after the top two in each category and there was sufficient funding to fully fund these four projects. Therefore, the Committee recommended funding the two highest scoring projects in each category. Brundage then reviewed all four applications and staff reviewed the funding amount each had requested. Batie stated there were more projects that were worthy of being funded if there would have been funding available. Rexroth stated it is important to talk to senators about spending authority as well as to revisit the funding level.

Shadle asked staff to explain funding authority and the issues with it this year. Zimmerman replied that a legislative appropriation is spending authority, but there is no cash tied to that. The actual money comes through a cash transfer in the budget bill which is a separate legislative item. There is also reappropriation which allows the fund balance at the end of the fiscal year to be moved into the next fiscal year. This year the legislature appropriated \$0.00 to this fund; transferred \$8,000,000 from NET to WSF through a cash transfer; and allowed reappropriation of the balance remaining in the fund.

Clint Verner, Legislative Fiscal Office explained that the reason why the legislature did not give spending authority for the NET funds was that if the appropriation was granted, the Omaha CSO project would have had to be funded with NET money which would have created a project conflict at NET by opening a can of worms in that sewer projects would then be eligible for Environmental Trust funding. The legislature didn't want to go down that road. With the

transfer of the \$8 million, they wanted to fund the outstanding obligation (WSF #10093). It was too late in the budget cycle to draft additional legislation, so rather than go into natural resources law which is outside of the Appropriation Committee's jurisdiction, they decided they would decide how to handle this appropriation issue next year.

Brundage noted that along with the "2025 NRC Application Review Committee's Recommended Scores" sheet that was handed out, there was also a contract provisions sheet "Application Review Committee's Recommendation for Conditions of Approval" and a packet of "WSF Application Conditions" (all attached).

Staff noted that by statute, any projects approved for funding must be in line with the purposes of the NET. Batic noted that during the application review committee meeting he had pulled up the NET statutes and rules and it was clear to the committee that all of the applications they had reviewed met that qualification. Brundage noted the NET statute was Neb. Rev. Stat. Section 81-15, 168, and that WSF #10093 was in line with that statute also.

(Taken out of order on the agenda)

EXECUTIVE COMMITTEE (Continued)

Nebraska Environmental Trust Act

Meyer moved and Batie seconded the motion to find that all 2025 WSF applications and obligation #10093 meet the funding purposes of the Nebraska Environmental Trust and shall therefore be expended in accordance with Neb. Rev. Stat. Section 81-15, 168.

Motion Passed.

Assignment WSF Funds

Batie stated that based upon Brundage's discussion, he would offer a motion.

Batie moved and Reeves seconded the motion to assign \$387,255.00 to the Small Projects available balance; and to assign all remaining available funding to the Large Projects available balance.

Motion Passed.

APPLICATIONS REVIEW COMMITTEE (continued)

Batie then offered the following motion.

Batie moved and Kelley seconded the motion to approve the Application Review Committee's recommended scores and fund all Small Project applications with a score of 49.4 or higher subject to the conditions proposed by the Application Review Committee.

Motion Passed.

OTHER BUSINESS

- Next meeting is on the afternoon of September 30th, 2025.
- The next agenda will include an item for Approved Practices in NSWCP.

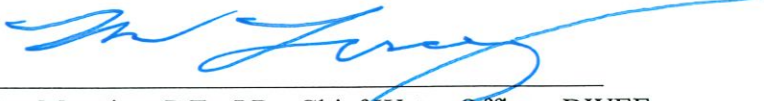

ADJOURNMENT

The meeting was adjourned at 2:34 p.m.

.....

Greg Wilke, Chair

Matt Manning, P.E., J.D., Chief Water Officer, DWEE

Scoring Committee Review Questions

- (1). Remediates or mitigates threats to drinking water.
 - (2). Meets the goals and objectives of an approved integrated management plan or ground water management plan.
 - (3). Contributes to water sustainability goals by increasing aquifer recharge, reducing aquifer depletion, or increasing streamflow.
 - (4). Contributes to multiple water supply goals, including, but not limited to, flood control, agricultural use, municipal and industrial uses, recreational benefits, wildlife habitat, conservation of water resources, and preservation of water resources.
 - (5). Maximizes the beneficial use of Nebraska's water resources for the benefit of the state's residents.
 - (6). Is cost-effective.
 - (7). Helps the state meet its obligations under interstate compacts, decrees, or other state contracts or agreements or federal law.
 - (8). Reduces threats to property damage or protects critical infrastructure that consists of the physical assets, systems, and networks vital to the state or the United States such that their incapacitation would have a debilitating effect on public security or public health and safety.
 - (9). Improves water quality.
 - (10). Has utilized all available funding resources of the local jurisdiction to support the program, project, or activity.
 - (11). Has a local jurisdiction with plans in place that support sustainable water use.
 - (12). Addresses a statewide problem or issue.
 - (13). Contributes to the state's ability to leverage state dollars with local or federal government partners or other partners to maximize the use of its resources.
 - (14). Contributes to watershed health and function.
 - (15). Uses objectives described in the annual report and plan of work for the state water planning and review process issued by the department.
- Federal Mandate Bonus.

WSF APPLICATION CONDITIONS

- A. The following condition applies to application(s) No.
 - **Coordination, Communication, and Data Sharing with the Department.**
 - A. Throughout the Project timeline, Sponsor shall coordinate and communicate with the Department on the Project's compatibility with water management goals, objectives, and action items resulting from the joint planning efforts between Sponsor and the Department.
 - B. Sponsor shall share with the Department all data that is generated as a result of this Project in a form that includes documentation and metadata and that is mutually agreed upon by Sponsor and Department.
- B. The following condition applies to application(s) No.
 - **Coordination, Communication, and Data Sharing with the Department.**
 - A. Throughout the Project timeline, Sponsor shall coordinate and communicate with the Department on the Project's compatibility with water management goals, objectives, and action items resulting from the joint planning efforts between Sponsor and the Department.
 - i. Within sixty (60) days following the execution of this Agreement, Sponsor and Department shall meet to further mutually define the scope of this coordination and communication requirement.
 - B. Sponsor shall share with the Department all data that is generated as a result of this Project in a form that includes documentation and metadata and that is mutually agreed upon by Sponsor and Department.
- C. The following condition applies to application(s) No.
 - **Coordination, Communication, and Data Sharing with the Department.**
 - C. Sponsor shall share with the Department all data that is generated as a result of this Project in a form that includes documentation and metadata and that is mutually agreed upon by Sponsor and Department.
- D. The following condition applies to application(s) No.
 - Prior to entering into an agreement with the Department for fund disbursement, sponsor must agree to limit reimbursement for administration and project management expenses to those performed by parties other than the sponsor and its partners.

E. The following condition applies to application(s) No.

- Prior to entering into an agreement with Department for fund disbursement, sponsor must certify that it has all necessary land rights to underdo the project and that a complete listing of all lands involved in the project along with proof of ownership will be provided if requested by the Department.

F. The following condition applies to application(s) No.

- Prior to entering into an agreement with Department for fund disbursement, sponsor must complete and submit a financial disclosure statement showing proof of ability to pay its 40% local share match; and certify that it has all local share funding necessary to complete the project.

G. The following condition applies to application(s) No.

- Cost share for land rights including easement purchases is limited to lands within the State of Nebraska. Costs associated with land rights outside of the State of Nebraska will not be used in cost share calculations.

H. The following condition applies to application(s) No.

- Litigation expenses related to land right purchases will not be eligible for WSF cost share, only the purchase price of the land.

I. The following condition applies to application(s) No.

- Prior to receiving reimbursement for construction expenses, sponsor must provide proof that an easement/agreement is in place to allow construction and maintenance of the stream bank and grade-stabilization structures for the life of the project.

J. The following condition applies to application(s) No.

- Prior to entering into an agreement with Department for fund disbursement, sponsor must certify that it has or can obtain sufficient funds to complete this project.

K. The following condition applies to application(s) No.

- Sponsor must not let construction related activities cause negative impacts to northern long-eared bats or their habitat. No tree clearing may occur between June 1st and July 31st of any year during construction.

L. The following condition applies to application(s) No.

- Sponsor must comply with conditions set forth by NGPC consultation letter if applicable.

M. The following condition applies to application(s) No.

- Sponsor must consult NGPC regarding any permitting actions to address potential impacts to state-listed endangered or threatened species. Consultation with NGPC must include a plan of work that avoids harm to state-listed endangered or threatened species or to mitigate any adverse effects.

N. The following condition applies to application(s) No.

- Prior to the Department entering into an agreement with Department for fund disbursement, sponsor must acknowledge and agree to the use of cash for its local share. In-kind services are not allowed for cost share as project expenses unless prior approval by the Director is obtained.

O. The following condition applies to application(s) No.

- Prior to entering into an agreement with Department for fund disbursement, applicants must agree to limit cost share to those expenses remaining after all other sources of funding have been utilized as required by Title 261 Ch2, § 009.05(A).

P. The following condition applies to application(s) No.

- Prior to receiving reimbursement for monitoring wells and installation, sponsor must provide proof that agreement(s)/easement(s) are in place to allow construction and maintenance of the wells, data loggers and telemetry.
