

Nebraska Soil and Water Conservation Program Update

Approved Soil and Water Conservation Practices

2013 Accomplishments

Total Accomplishments 1977-2013

Terraces.....	91 miles	12,602 miles
Terrace Underground Outlets.....	131,526 feet	6,526,259 feet
Water Impoundment Dams.....	1	1,364
Grade Stabilization Structures.....	1	753
Irrigation Tailwater Recovery Pits.....	2	875
Diversions.....	3,431 cubic yards	1,777,042 cubic yards
Grassed Waterways.....	33 acres	14,285 acres
Water and Sediment Control Basins.....	24	824
Dugouts for Livestock Water.....	4	711
Pasture or Range Seeding.....	1,677 acres	73,685 acres
Critical Area Plantings-Grass.....	3,189 acres	5,014 acres
Windbreaks.....	402 acres	61,863 acres
Windbreak Renovations.....	8 acres	3,935 acres
Irrigation Return Pipe.....	2,307 feet	563,437 feet
Planned Grazing Systems.....	72,188 acres	4,048,118 acres
Irrigation Water Management.....	36,381 acres	556,400 acres
Repair of Practices.....	1	267
Brush Management.....	290 acres	510 acres
Stream Bank Stabilization.....	0	3
*Irrigation Surge Valves.....	0	632
**Republican Basin GW Meter Program.....	0 meters	1,713 meters
**Republican Basin SW Meter Program.....	0 meters	82 meters
***Republican Basin Water Meter Program.....	0 meters	5,451 meters
****Water Mgt. Area Water Meter Program.....	0 meters	504 meters

Totals

\$2,197,430.00 \$93,797,519.00

* Rescinded as separate practice effective 7/1/94

** These practices not used after 7/1/2001

*** This practice not used after 12/31/05

**** This practice not used after 3/31/05

December 31, 2013

Figures are rounded to the full unit

The **Nebraska Soil and Water Conservation Fund** was established in 1977 to provide state financial assistance to Nebraska landowners installing approved soil and water conservation measures. Since 1977 the **State of Nebraska has provided over \$93 Million** in state cost-share assistance to Nebraska landowners. The fund is administered at the state level by the **Nebraska Department of Natural Resources** and is coordinated by the state's 23 natural resources districts at the local level with technical assistance provided by the Natural Resources Conservation Service. For additional information on the **Nebraska Soil and Water Conservation Fund**, contact the **Nebraska Department of Natural Resources** or your local natural resources district.
